**Additional Information**

This product is regulated by the United States Consumer Product Safety Commission and is subject to certain labeling requirements under the Federal Hazardous Substances Act. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS). The product label also includes other important information, including directions for use, and should always be read in its entirety prior to using the product.

# 2. HAZARDS IDENTIFICATION

**Skin Corrosion/Irritation, Category 1A-1C**

**Serious Eye Damage/Eye Irritation, Category 1**

**GHS Signal Word:** Danger

**GHS Hazard Phrases:**

- H314: Causes severe skin burns and eye damage.
- H318: Causes serious eye damage.

**GHS Precaution Phrases:**

- P260: Do not breathe gas/mist/vapors/spray.
- P264: Wash hands thoroughly after handling.
- P280: Wear protective gloves/protective clothing/eye protection/face protection.

**GHS Response Phrases:**

- P301+330+331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- P303+361+353: IF ON SKIN (or hair): Remove/take off immediately all contaminated clothing. Rinse skin with water/shower.
- P304+340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P310: Immediately call a POISON CENTER or doctor/physician.
- P321: Specific treatment see label.
- P363: Wash contaminated clothing before reuse.

**GHS Storage and Disposal Phrases:**

- P405: Store locked up.
- P501: Dispose of contents/container according to local, state and federal regulations.

SAFETY DATA SHEET

Hazard Rating System:

- Health: 1
- Flammability: 1
- Instability: 0
- Physical: 1
- Special Hazard: X
- NFPA: 1

OSHA Regulatory Status: This material is classified as hazardous under OSHA regulations.

Potential Health Effects (Acute and Chronic):

Inhalation Acute Exposure Effects:
May cause irritation of the respiratory tract, including mucous membranes and nasal passages.

Skin Contact Acute Exposure Effects:
May cause burns, irritation and drying of the skin.

Eye Contact Acute Exposure Effects:
May cause damage, redness, tearing, and irritation.

Ingestion Acute Exposure Effects:
May cause gastrointestinal irritation, nausea, abdominal pain, vomiting, and diarrhea.

Chronic Exposure Effects:
May cause mild bronchial irritation. Overexposure to Diethylene Glycol Monomethyl Ether has apparently been found to cause the following effects in laboratory animals: kidney damage, liver abnormalities, and testis damage.

Target Organs: liver, respiratory tract, kidney, blood

Medical Conditions Generally Aggravated By Exposure:
Diseases of the skin, eyes, and respiratory system.

### 6. ACCIDENTAL RELEASE MEASURES

**Steps To Be Taken In Case Material Is Released Or Spilled:**

Clean Up:

Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas, and ventilate closed spaces before entering. Keep out of sewers, waterways, and bodies of water.

For small spills, take up liquid with sand, earth, or other noncombustible absorbent material and place in a container for disposal.

For large spills, dike far ahead of spill and use sand, earth, or other noncombustible absorbent material and then place material in a container for disposal.

### 7. HANDLING AND STORAGE

**Precautions To Be Taken in Handling:**

Read carefully all cautions and directions on product label before use. Since empty container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse the container.

**Precautions To Be Taken in Storing:**

Keep container tightly closed when not in use. Store in a cool, dry place. Protect from freezing. Avoid extreme high or low temperatures.

### Respiratory Equipment (Specify Type):

Under normal use conditions and when used as directed, respiratory protection is not needed.

For OSHA controlled work place and other regular users. Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLV. For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirator for organic solvent vapors to keep vapors below applicable exposure limits. A dust mask does not provide protection against vapors.

### Eye Protection:

Safety glasses, chemical goggles or face shields are recommended to safeguard against potential eye contact, irritation, or injury.

### Protective Gloves:

Wear gloves with as much resistance to the chemical ingredients as possible. Glove materials such as nitrile may provide protection. Glove selection should be based on chemicals being used and conditions of use. Consult your glove supplier for additional information. Gloves contaminated with product should be discarded and not reused.

### Other Protective Clothing:

Various application methods can dictate use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure. Before reuse, thoroughly clean any clothing or protective equipment that has been contaminated by prior use.

### Engineering Controls (Ventilation etc.):

Use only with adequate ventilation to prevent build-up of vapors. Open all windows and doors. Use only with a cross ventilation of moving fresh air across the work area. If strong odor is noticed or your experience slight dizziness, headache, nausea, or eye-watering - STOP - ventilation is inadequate. Leave area immediately.

### Work/Hygienic/Maintenance Practices:

Wash hands thoroughly after use and before eating, drinking, or smoking.

Do not eat, drink, or smoke in the work area.

Facilities storing or handling this material should be equipped with an emergency eyewash and safety shower.
